

INNOVATIVE
REFLECTIONS

Providing Classic
Illuminated Mirrors

Since 1982

COMMITMENT TO EXCELLENCE

We provide mirrors for both new builds and existing properties and we specialize in engineering mirrors to coordinate with current site conditions. Our highly skilled and expert engineering staff works closely with you to design the most economical means of incorporating this new technology into the unique challenges faced by each retrofit assignment.

Our commitment to leadership in product design means that we are continually researching and developing improvements that transform mirrors into innovative products that enhance and enrich well-lit private rooms and public space. By incorporating lighting technology into mirrors we provide beautiful solutions to aesthetic considerations and design requirements.

MIRROR OPTIONS

LAMPING

Our standard mirrors are wired for use with T-5 fluorescent lamps, normal or high output. We recommend a 3000K color temperature with an 85 CRI or above, for best results. LED lamping is available on certain mirror configurations. Please consult the factory for the most current options available.

GLASS

Our standard glass is 3/16" thick with a pencil polished edge. In addition to our standard glass, we offer SuperFine Glass as an option. Superfine Glass has lower iron content and reduces the slight green tint with superior white transparency. Please consult factory for specific requirements, beveling options, etc.

EASY LIFT ACCESS

A heavy-duty hinged opening is available for lamp replacement on most models. Even the largest size mirrors can be opened with one hand and remain firmly in the open position unassisted while re-lamping, cleaning or maintenance is performed.

DEFOGGER

Available on most styles. This is a low voltage warmer that keeps a portion of the mirror clear in high humidity conditions.

MOUNTING AND ELECTRICAL

All back lit mirrors are standard for 120 volt wiring and UL listed. Mirrors can either be hardwired into receptacle boxes or, using a cord, plugged into electrical outlets. All mirrors come with mounting holes. Consult factory for availability of alternate voltages and mounting specifications/options.

NIGHT LIGHT

This option is available on all of our mirrors. By using a secondary circuit the night light may be switched on and off independently from the mirror light.

MODEL 9220

This style's illuminated border is inset from the edge of the glass allowing the majority of light to shine through the frosted border. With its clean lines, polished edges and transitional feel, it will enhance a variety of interior motifs.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- 277 Volt Wiring

Item #	H	W	D	Lamping
9220-40x30	40"	30"	2.125"	(2) 14 Watt & (2) 21 Watt T-5 Lamps
9220-40x40	40"	40"	2.125"	(4) 21 Watt T-5 Lamps
9220-40x54	40"	54"	2.125"	(2) 21 Watt & (2) 28 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9228

The illuminated border of this series extends out to the edge of the glass. This serves the dual functions of lighting the subject and providing an ambient glow. The modern feel and effect of this style will help to accentuate its surroundings.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- 277 Volt Wiring

Item #	H	W	D	Lamping
9228-40x30	40"	30"	2.125"	(2) 14 Watt & (2) 21 Watt T-5 Lamps
9228-40x40	40"	40"	2.125"	(4) 21 Watt T-5 Lamps
9228-40x54	40"	54"	2.125"	(2) 21 Watt & (2) 28 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9235

This dramatic style provides extra illumination through the faux sprockets adding both a whimsical and functional design element.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location
- High Output Lamping

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9235-38x30	38"	30"	2.125"	(2) 39 Watt T-5 Lamps
9235-38x36	38"	36"	2.125"	(2) 39 Watt T-5 Lamps
9235-38x48	38"	48"	2.125"	(2) 39 Watt T-5 Lamps
9235-48x36	48"	36"	2.125"	(2) 54 Watt T-5 Lamps
9235-48x48	48"	48"	2.125"	(2) 54 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9240

The two lighting features in this style increase the illumination on the viewer as well as emitting a soft blush of radiance onto the walls on either side of the mirror.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- High Output Lamping
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9240-38x30	38"	30"	2.125"	(2) 39 Watt T-5 Lamps
9240-38x36	38"	36"	2.125"	(2) 39 Watt T-5 Lamps
9240-38x48	38"	48"	2.125"	(2) 39 Watt T-5 Lamps
9240-48x36	48"	36"	2.125"	(2) 54 Watt T-5 Lamps
9240-48x48	48"	48"	2.125"	(2) 54 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9241

This series sports a handsome 3" wide solid wood frame along with two wide vertical illuminated panels. The wood may be stained in a standard or custom tone to accommodate the room's décor.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 3" Wide Wood Frame
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Custom Frame Designs, Molding Dimensions and Finish Colors, Consult Factory
- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- 277 Volt Wiring

Item #	H	W	D	Lamping
9241-44x42	43.5"	41.5"	2.125"	(2) 39 Watt T-5 Lamps
9241-44x54	43.5"	53.5"	2.125"	(2) 39 Watt T-5 Lamps
9241-44x60	43.5"	59.5"	2.125"	(2) 39 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9242

The two vertical illuminated panels are enhanced with the addition of a metal frame. The mirror frame may be ordered in a variety of metallic finishes to coordinate with other room hardware.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 1" Wide Metal Frame
- Fully Assembled, Installation Ready
- High Output Lamping
- U.L. Listed for Damp Location

OPTIONS:

- Custom Finishes, Consult Factory
- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9242-38x36	38"	36"	2.25"	(2) 39 Watt T-5 Lamps
9242-38x48	38"	48"	2.25"	(2) 39 Watt T-5 Lamps
9242-48x36	48"	36"	2.25"	(2) 54 Watt T-5 Lamps
9242-48x48	48"	48"	2.25"	(2) 54 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9245

This contemporary style features a wide metal frame inset with two vertical illuminated panels along with a soft blush of light reflected onto the surrounding walls.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9245-36x28	36"	28"	2.25"	(2) 39 Watt T-5 Lamps
9245-36x36	36"	36"	2.25"	(2) 39 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9254

This series combines the elegance of two illuminated panels with the ambient wall glow provided by additional light sources surrounding the perimeter.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- High Output Lamping
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9254-38x36	38"	36"	2.125"	(2) 39 Watt & (2) 14 Watt T-5 Lamps
9254-38x48	38"	48"	2.125"	(2) 39 Watt & (2) 21 Watt T-5 Lamps
9254-38x54	38"	54"	2.125"	(2) 39 Watt & (2) 21 Watt T-5 Lamps
9254-48x40	48"	40"	2.125"	(2) 54 Watt & (2) 14 Watt T-5 Lamps
9254-48x54	48"	54"	2.125"	(2) 54 Watt & (2) 21 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9256

The customary shape of this mirrored wall décor is enhanced with an illuminated internal oval of light that encircles the viewer in a radiant glow.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9256-42x32	42"	32"	2.125"	(2) 22 Watt & (2) 40 Watt T-5 Circline
9256-42x42	42"	42"	2.125"	(2) 22 Watt & (2) 40 Watt T-5 Circline

* Custom Sizes Available, Consult Factory

MODEL 9257

For larger scale applications, this double oval design provides separate halos of illumination at each station.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9257-42x66	42"	66"	2.125"	(4) 22 Watt & (4) 40 Watt T-5 Circline
9257-42x84	42"	84"	2.125"	(4) 22 Watt & (4) 40 Watt T-5 Circline

* Custom Sizes Available, Consult Factory

MODEL 9258

Two 4" wide lighted panels border the vertical sides of this series.

FEATURES:

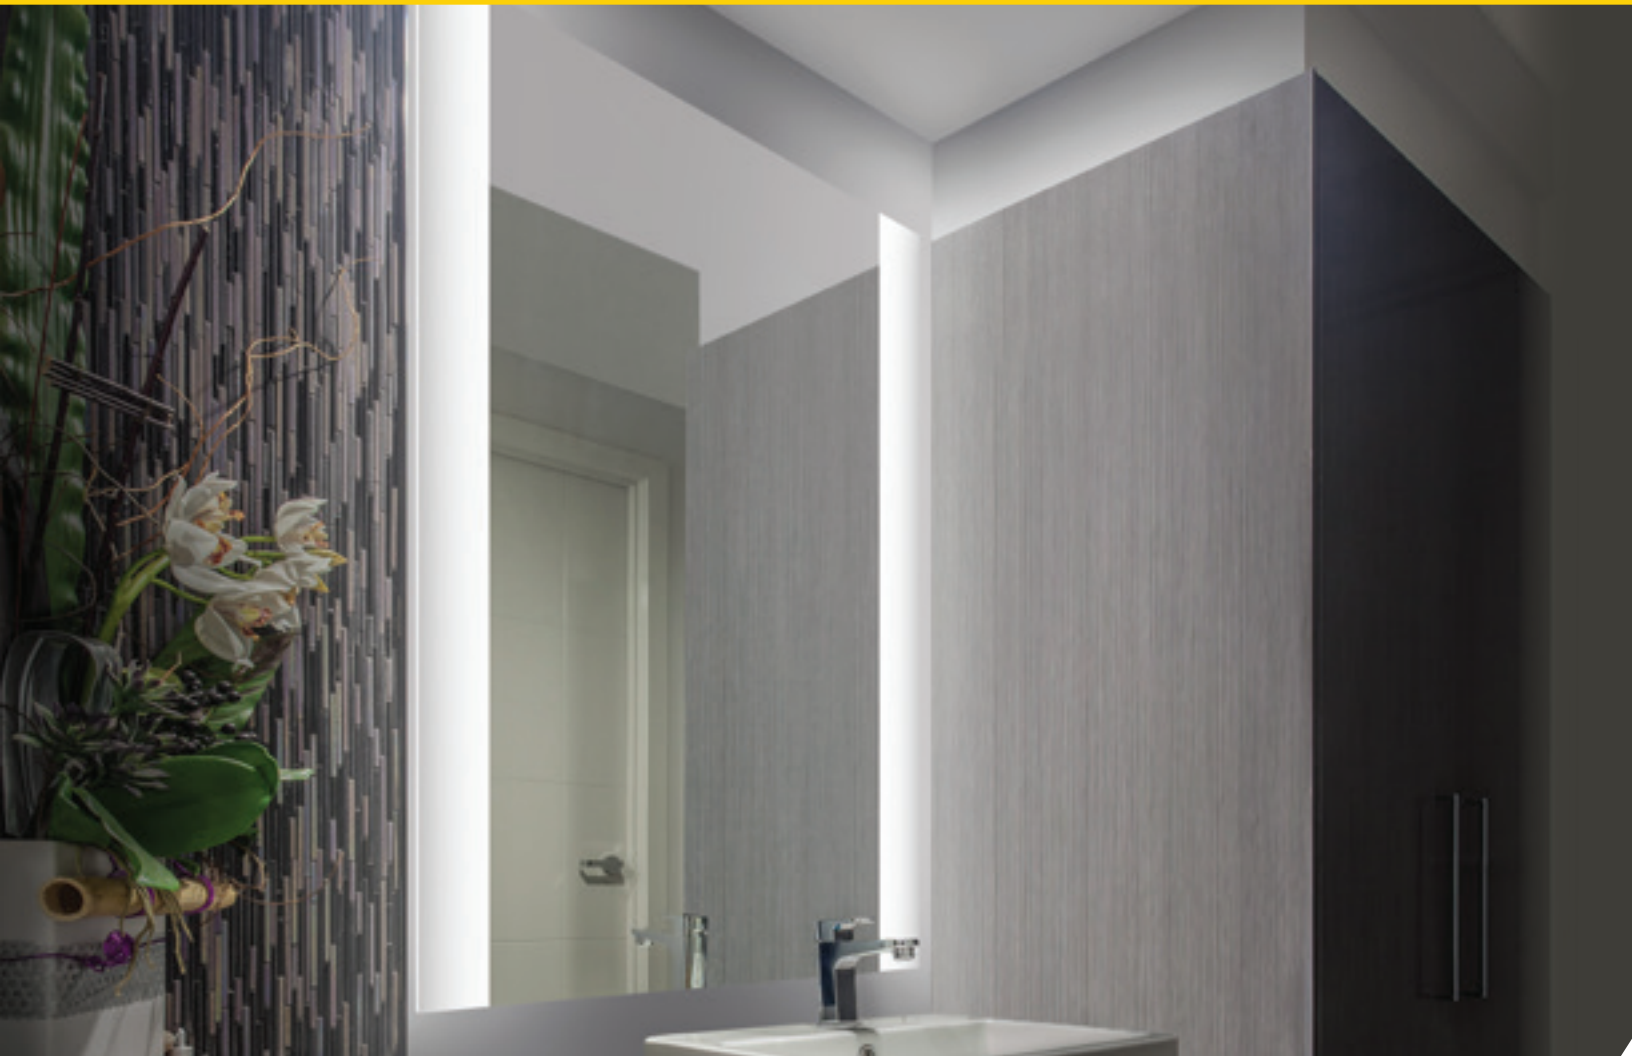

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9258-36x36	36"	36"	2"	(2) 39 Watt T-5 Lamps
9258-36x48	36"	48"	2"	(2) 39 Watt T-5 Lamps
9258-36x60	36"	60"	2"	(2) 39 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9260

Two wide lighted panels border the horizontal edges of this series adding both illumination and an interesting design element.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	H	W	D	Lamping
9260-36x36	36"	36"	2"	(2) 39 Watt T-5 Lamps
9260-42x48	42"	48"	2"	(2) 54 Watt T-5 Lamps
9260-42x60	42"	60"	2"	(2) 35 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9264

Where both a backlit mirror and the warmth of a wood frame are desired, this series provides the touch of elegance and illumination. Custom stain matching available at no additional charge.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 2" Wide Wood Frame
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Custom Frame Designs, Molding Dimensions and Finish Colors, Consult Factory
- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- 277 Volt Wiring

Item #	H	W	D	Lamping
9264-44x34	43.5"	33.5"	2.5"	(2) 14 Watt & (2) 21 Watt T-5 Lamps
9264-44x44	43.5"	43.5"	2.5"	(4) 21 Watt T-5 Lamps
9264-44x58	43.5"	57.5"	2.5"	(2) 21 Watt & (2) 28 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory

MODEL 9335

For bathroom, guestroom and corridor areas requiring the sophistication of a round mirror and the drama of light, this style is the perfect solution.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 3/4" w x 2 1/8" d Polished Metal Frame
- Fully Assembled, Installation Ready
- High Output Lamping
- Hardwire Electrical Connections
- U.L. Listed for Damp Location

OPTIONS:

- Custom Finishes, Consult Factory
- Integral Nightlight (Requires 2-Circuit Wiring)
- 277 Volt Wiring

Item #	Diameter	D	Lamping
9335-24	24"	2.125"	55 Watt T-5 Circline
9335-30	30"	2.125"	(2) 55 Watt T-5 Circline

* Custom Sizes Available, Consult Factory

MODEL 9338

Encircle the viewer in the ample illumination cast by the ring of light that borders this attractive mirror style, appropriate for public spaces and over vanities.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- High Output Lamping
- Beveled Edge Glass
- 277 Volt Wiring

Item #	Diameter	D	Lamping
9338-24	24"	2.125"	55 Watt T-5 Circline

* Custom Sizes Available, Consult Factory

MODEL 9428

This fabulous octagonal style provides a beautiful border of light as well as a lustrous bloom onto the surrounding wall.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- Hardwire Electrical Connections
- U.L. Listed for Damp Location

OPTIONS:

- Integral Nightlight (Requires 2-Circuit Wiring)
- 277 Volt Wiring

Item #	H	W	D	Lamping
9428-36x36	36"	36"	2"	(4) 40 Watt T-5 Circline
9428-48x48	48"	48"	2"	(4) 40 Watt T-5 Circline

* Custom Sizes Available, Consult Factory

MODEL 9482

A multitasker's dream come true. Our tv mirror incorporates a high definition television screen with smart TV capabilities such as internet accessibility while providing the benefits of a backlit mirror. Be well groomed and well informed.

FEATURES:

- Rapid Start Electronic Ballast
- Powder Coated Frame Assembly
- 5MM Glass with Polished Edge
- Fully Assembled, Installation Ready
- High Output Lamping
- U.L. Listed for Damp Location

OPTIONS:

- Hardwire or Plug-In Electrical Connections
- Integral Nightlight (Requires 2-Circuit Wiring)
- Bevel Edge Glass
- 277 Volt Wiring

TV FEATURES:

- High contrast HD display
- Screen size 16.3" x 9.07"
- Internet Connectivity

Item #	H	W	D	Lamping
9482-36x30	36"	30"	2"	(2) 39 Watt T-5 Lamps

* Custom Sizes Available, Consult Factory
